

Goes **Green** With:

ecoTECH™
acoustical panel

Features of EcoTech

- ♻️ Made from 100% recycled polyester fibers using the latest in "green" technology (65% PET-recycled fiber and 35% PET-virgin fiber)
- ♻️ Significantly reduces the environmental footprint of acoustic treatment versus traditional fiberglass
- ♻️ Decreases our dependence on foreign crude oil and other non-renewable energy sources
- ♻️ Outstanding thermal insulation and sound absorption 0.45 NRC (1/2"), 0.75 NRC(1")
- ♻️ Fire retardant (self-extinguishing) ASTM E-84 "A" grade
- ♻️ Strong in Moisture, No Mold, No Odor
Low water absorption and high water resistance
- ♻️ Dust Free, No Formaldehyde, Non-Allergenic, Non-Toxic No risk of skin irritation or respiratory problems
- ♻️ Superior shape stability and flexibility (semi-permanent life span)
- ♻️ Easy to handle and simple to apply, the GREEN choice for Total Sound Control®

Usage

- ♻️ Sound absorbing material for movie theaters, gymnasiums, churches, auditoriums and studios
- ♻️ Interior finishing material for home or apartment
