

ELiTE ProFusor™

Fabric Wrapped Diffusor

Benefits:

- Wrapped in a Class A acoustically transparent fabric for superior appearance and performance
- Scientifically engineered using a quadratic residue sequence for improved diffusion capabilities
- Standing waves and flutter echoes are obliterated without removing acoustic energy from the space or changing the frequency content of the sound
- ProFusors can enhance the accuracy of the critical listening environment and create a larger sweetspot

Applications:

- For use in Residential Theaters, Listening Rooms, Concert Halls, Recording Studios, Houses of Worship, and various other residential and commercial applications

Size:

- 23¾" square x 4" thick

Box Information

- (2) per box, minimum (*min. covers approx. 8 sq. ft.*)
- Box Size B (*see page 59*)

Installation:

- Adhesives: Tubetak Pro Liquid Adhesive
- Mechanical fasteners (*e.g., T-pins, tacks, nails, etc.*)

Colors:

- Spinel Sandstone
- Spinel Obsidian

Test Data:

- Available online at www.AuralexELITE.com
